Team ID	N/A (Individual Project)
Project Name	Electric Vehicle Market Performance & Insights
Maximum Marks	5 Marks

Business Questions and Visualisation

The process involves defining specific business questions to guide the creation of meaningful and actionable visualizations in Tableau. Well-framed questions help in identifying key metrics, selecting relevant data, and building visualisations that provide insights.

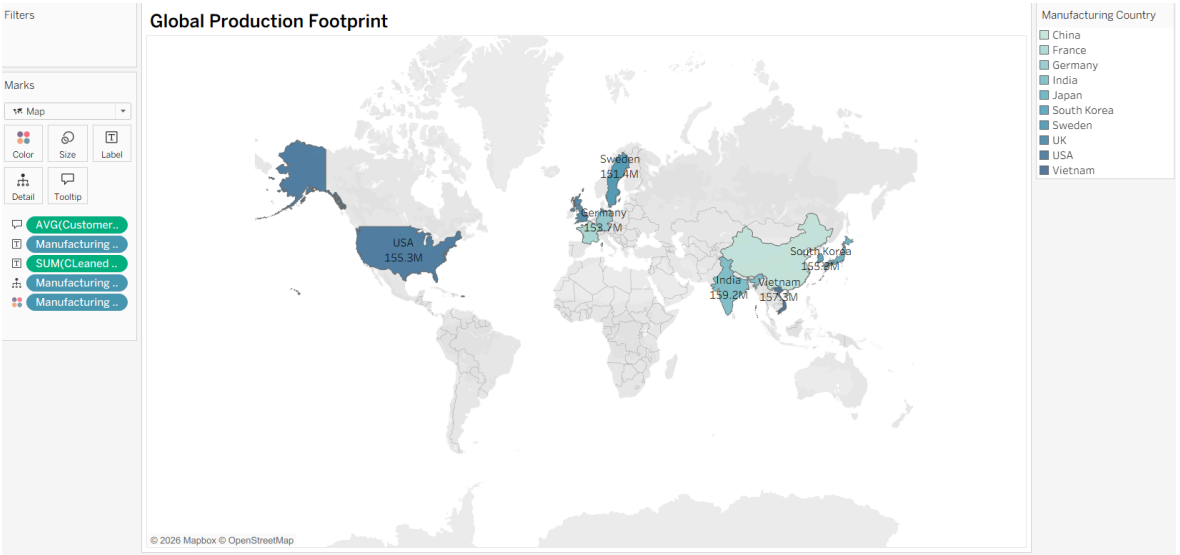

1. What is the total global EV sales volume and average price?

Visualization: KPI Scorecard (Text Chart) displaying high-level aggregated metrics.

Total EV Sales	Average Price	Customer Rating	Average Range
1,550.7M	$65K	4.09	325km

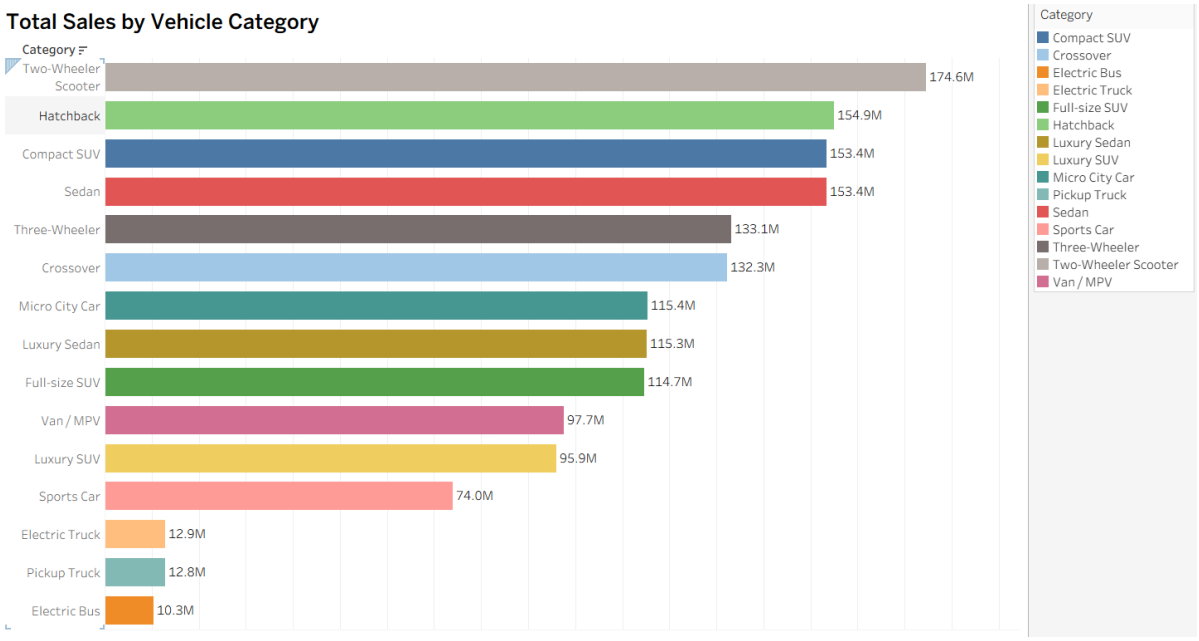

2. Which global regions have the highest adoption of Electric Vehicles?

Visualization: Geographic Filled Map showing sales density by region/country.

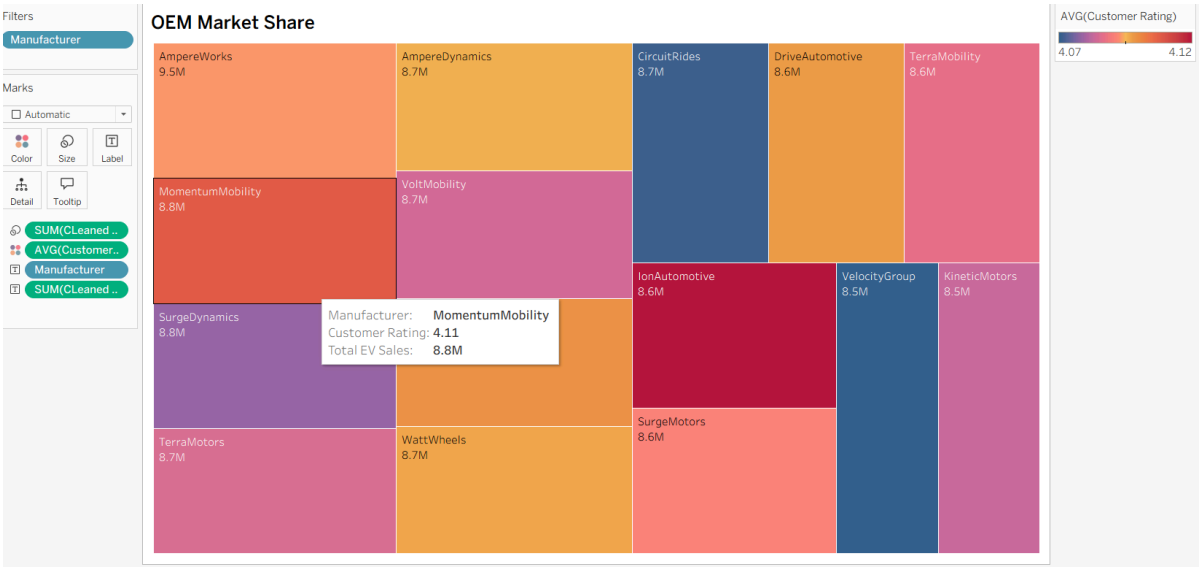

3. How does the average EV price vary across different vehicle segments?

Visualization: Horizontal Bar Chart comparing average price across segments (e.g., SUV, Sedan, Compact).

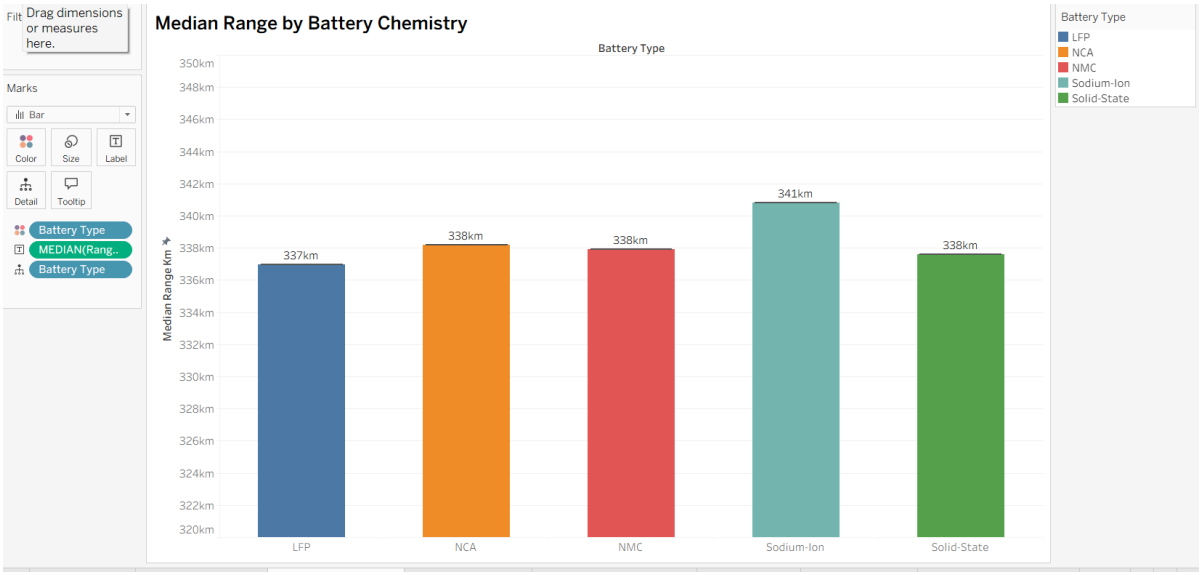

4. What is the market share distribution among the top Automotive OEMs?

Visualization: Treemap sizing rectangles by total sales volume per OEM.

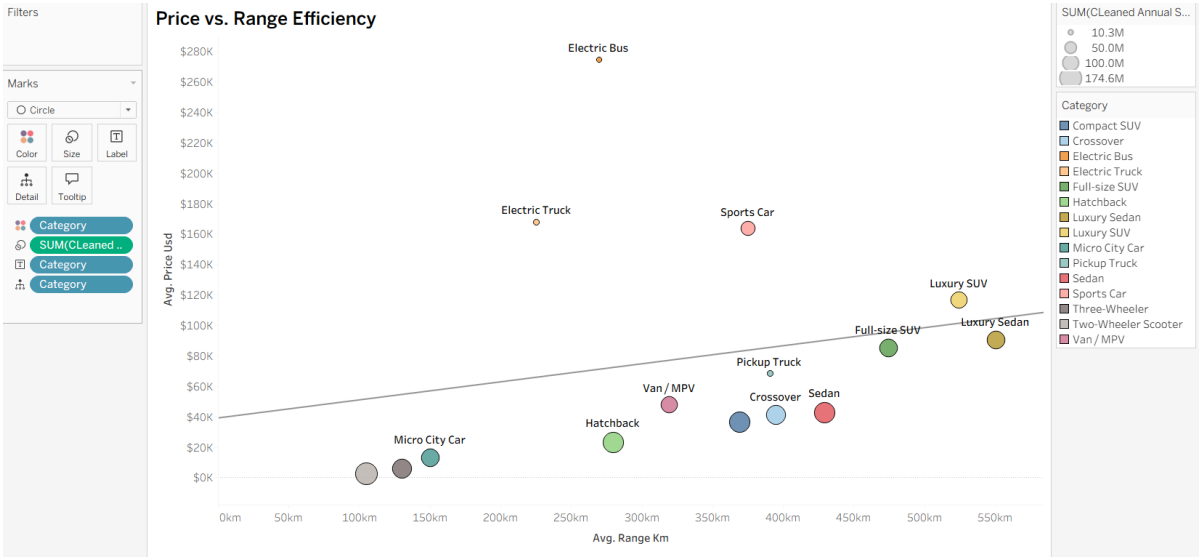

5. How do different battery chemistries (e.g., NMC, LFP) compare in average range efficiency?

Visualization: Side-by-side Bar Chart comparing range (miles/km) by battery type.

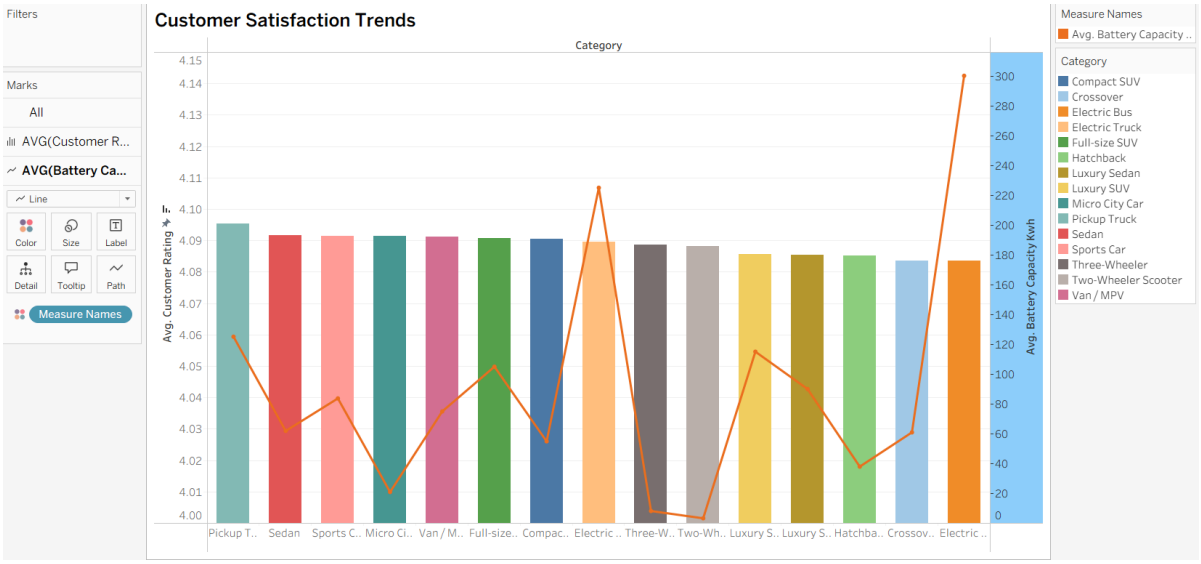

6. Is there a direct correlation between EV pricing and vehicle range?

Visualization: Scatter Plot mapping Price (X-axis) against Range (Y-axis) with trend lines.

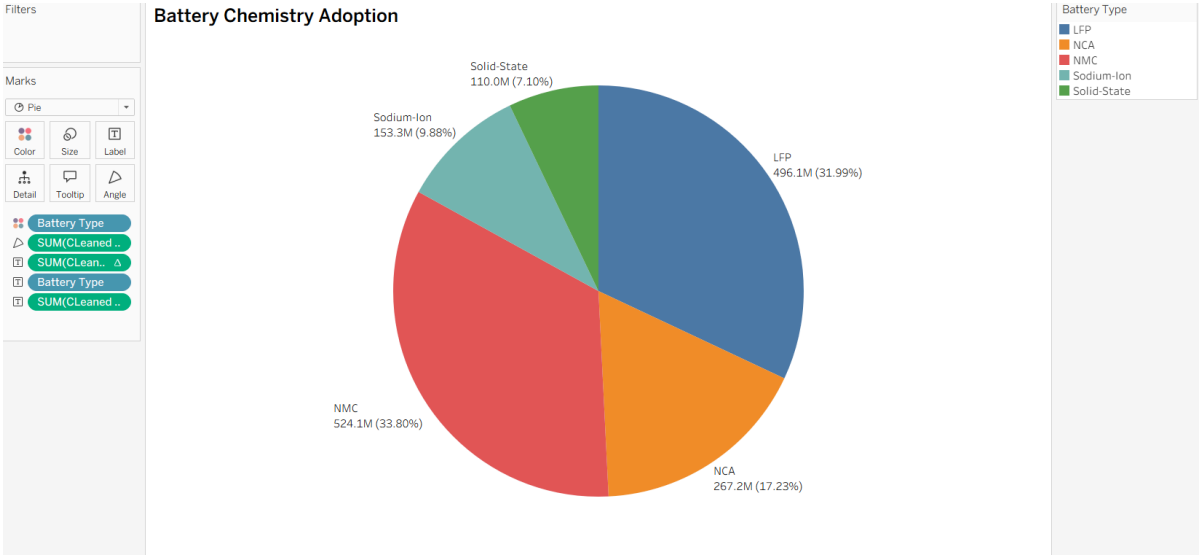

7. What is the year-over-year growth trend for EV sales globally?

Visualization: Line Chart showing sales volume trends over time.

8. Which battery type dominates the top-selling EV models?

Visualization: Stacked Bar Chart showing battery chemistry breakdown within the top OEM models.

9. What is the distribution of vehicle drivetrains (e.g., AWD, FWD, RWD) among the top-selling EVs?

Visualization: Pie Chart or Donut Chart showing the percentage split of drivetrain configurations across the market.
