Project Demo Planning

Field	Details
Date	26 October 2026
Team ID	N/A (Individual Project)
Project Name	Electric Vehicle Market Performance & Insights
Maximum Marks	1 Mark

Demo Objective

To effectively showcase the Electric Vehicle Market Performance & Insights Tableau dashboard, demonstrating how the interactive visualizations and 6-point Data Story solve the problem of fragmented EV market data for stakeholders.

Demonstration Tools & Setup

- **Presentation Platform:** OBS STUDIO
- **BI Tool Display:** Tableau Public (Web Browser view)
- **Hardware / Resolution:** HP Victus 15 (Intel Core i5, RTX 3050) capturing at 1080p for clear visibility of dashboard charts and metrics.

Demo Agenda & Script Flow

Time	Section	Talking Points
0:00 - 1:00	**Introduction**	Introduce Harsh Gupta, the project title, and the core problem statement (fragmented EV data making strategic decisions difficult).
1:00 - 2:00	**Architecture & Data**	Briefly explain the data flow from raw CSV to Tableau Extracts, noting the 1,550.7M EV sales records used.
2:00 - 4:00	**Dashboard Walkthrough**	Showcase the 3×3 dashboard. Demonstrate interactivity: click on a region in the Global Production Footprint Map, use

Time	Section	Talking Points
		the Battery Type filter, and show how the KPI scorecard updates dynamically.
4:00 - 5:30	**Tableau Story**	Walk through the Tableau Story tabs. Highlight the major outcomes: Two-Wheeler volume dominance, Sodium-Ion range efficiency, and Price vs. Range correlation.
5:30 - 6:00	**Conclusion**	Summarize the project's value to executives and mention future scalability (e.g., live database integration).

Preparation Checklist

- ☑ Verify the Tableau Public dashboard link is live and accessible.
- ☑ Ensure all dashboard filters are reset to the default "All" state before starting the recording.
- ☑ Test microphone audio and screen sharing resolution.
- ☑ Keep the Final Report and Business Questions documents open on a secondary tab for quick reference.
